

## 2S1P PCI Serial Parallel Combo Card with 16550 UART

StarTech ID: PCI2S1P

This PCI 2S1P Serial/Parallel Combo Card turns a PCI slot into two external 16C550 serial ports and one external EPP/ECP parallel port - an all-in-one solution that gives you both parallel and serial connections while taking up only one PCI slot.

The serial/parallel combo card is PCI plug and play ready, and supports IRQ sharing for fast, simple installation. The combo card is supported in virtually any Microsoft Windows operating environment, (Windows® Vista, XP, ME, 2000, 98, 95 and NT4), and is backed by StarTech.com's Lifetime Warranty and free lifetime technical support.

### Applications and Solutions

- Connect parallel and serial devices like printers, scanners, ISDN terminal adapters, CD-R/RWs, Zip® drives and memory card readers

## Features

- Compatible with all versions of Windows® including Windows® XP
- IRQ sharing eliminates conflicts between multiple cards
- One EPP/ECP parallel port with data transfer up to 1.5 Mbits/sec
- Parallel port supports EPP, ECP, SPP and BPP
- Two 16C550 serial ports with data transfer up to 460.8 Kbits/sec

## Technical Specifications

- Bus Type: PCI (5 Volt)
- Connector Types: 1 - DB25 Female
- Connector Types: 2 - DB9 Male
- Product Height: 2.17 in [5.5 cm]
- Product Length: 4.72 in [12 cm]
- Number of Ports: 2
- Carton Quantity: 50
- Shipping (Package) Weight: 0.49 lb [0.22 kg]
- Drivers: Windows 95/98/NT4/ME/2000/XP/Server 2003/Vista, DOS and Linux
- Parallel Data Transfer Rate: Up to 1.5 Mbits/sec.
- Chipset: NetMos NM9835CV 16C550
