

PCI Express to Single ExpressCard Adapter Card

StarTech ID: PEX2EC

This PCI Express to ExpressCard adapter adds an ExpressCard slot to a PCI Express capable computer.

A cost-effective solution, the adapter lets you use your ExpressCards (AirCard, wireless broadband card, etc.) on a desktop PC - eliminating the expense of having to buy a desktop specific add-on card (PCI based, etc.).

Applications and Solutions

- Connect USB 2.0, IEEE-1394 FireWire, RS-232 Serial, LAN/Network, Serial ATA, modem laptop cards as well as other laptop cards to your desktop computer
- Use the PCI Express to ExpressCard adapter for your wireless broadband connections and be able to connect to the internet on your laptop and desktop PC

Features

- Compliant with PCI Express Base Specification 1.0a
- No need to buy separate cards for both your laptop and desktop systems, save money and share a single card between both your computers
- PCI Express x1 lane width
- Supports both 34 and 54 form factor ExpressCards
- Works with PCI Express slots that provide 3.3V and 1.5V auxiliary power

Technical Specifications
