

VGA Video Extender over Cat5 - Point to Point (UTPE Series)

StarTech ID: ST121UTPEP

StarTech.com's Converge A/V ST121UTPEP VGA-Cat5 extender lets you connect a remote VGA display/projector to a local PC or media player with a total connection distance of up to 80m (250ft) between the VGA signal source and the intended display/projector.

The ST121UTPEP includes both local and remote VGA units, transmitting the extended VGA over Ethernet (Cat5e UTP cable, terminated with RJ45 connectors).

Offering convenient and cost-effective VGA distribution, the ST121UTPEP only requires one power adapter, installed at either the local or remote unit, wherever is most convenient for the application.

To ensure a tidy installation, the ST121UTPEP includes a mount for the receiver so that it can be fixed onto to the back of a display, eliminating unnecessary cable tangles.

Backed by 1-year warranty and free lifetime technical support.

Applications and Solutions

- Ideal for digital signage applications in financial, educational, and healthcare sectors.
- Place the display in a convenient viewing area, while the system equipment is placed elsewhere in a clean and secure environment

Features

- Consists of 1 Base unit and 1 Remote unit for the remote display.
- Extends video cables by up to 250 ft. (150m) using Cat 5 cabling.
- Installation bracket included to mount onto wall, back of display, or cabinet
- Pure hardware design, no software or drivers required
