

## USB VGA External Dual or Multi Monitor Video Adapter - High Resolution

StarTech ID: USB2VGA2

This USB to VGA Multi Monitor External Video Adapter turns a USB 2.0 port into a VGA port, with support for 32-bit graphics (up to 1600 x 1200 resolution), to deliver a high quality dual display or multi-monitor configuration that can be used in a variety of laptop or desktop applications.

For even more versatility, up to five USB to VGA External Video adapters can be used simultaneously, providing a simple and scalable solution for extending or mirroring an existing desktop or laptop display.

### Applications and Solutions

- An excellent, lightweight solution that will allow you easy access for adding an extra monitor(s)
- Extend your desktop across multiple monitors and run spreadsheets or browse the internet with your additional displays

## Features

- Add a secondary display adapter and extend your desktop display without taking apart your computer to install a new video card
- No power adapter required and easy to install
- Supports resolutions up to 1600 x 1200 (32-bit), 1920 x 1200 (16-bit)
- Works with desktop and laptop computers

## Technical Specifications
