2.5" SATA to USB 2.0 On-The-Go Drive Enclosure

Part # SATCASE250TG
MSRP: \$54.99 (USD)

Turn virtually any 2.5" SATA hard drive into an ultimate USB "On-the-Go" storage solution! At the touch of a button, copy files directly from a digital camera, MP3 player, card reader or other USB device without the need to connect to a computer. Plus, you can connect to a PC and use the one button backup feature to share files and make external backups. The portable and lightweight case is constructed with durable brushed aluminum to enhance durability for mobile applications.

Applications

- Backup your existing hard drive for extra data security
- Copy files (including images, audio, and multimedia) directly from a digital camera, MP3 player or other USB devices to the hard drive without need of a computer
- Easy add-on storage for home or office usage
- Great for storing/editing space consuming videos and high-end graphic files and making them portable
- Share files with friends/colleagues

The StarTech.com
Advantage:

- Aluminum construction for increased heat dissipation and durability
- High speed USB 2.0 data transfer rates up to 480 Mbps
- Includes one button backup software for Windows (one button features does not work with MAC)
- Multiple LED indicators report on drive power and activity

“System builders might want to build an InfoSafe enclosure for themselves to carry important files with them to job sites.”

“Very nice product.”

“StarTech OTG device makes a solid impression.”

“Any of your customers who work with large media files should be introduced to this nifty new accessory.”
