

## USB Display Adapters

- An easy, simple to use solution for connecting multiple displays through a USB 2.0 port
- Mirror and extend your desktop across multiple displays
- Multiple monitors have consistently proven to increase productivity and efficiency
- No need to install an internal graphics card

### Why are they convenient?

- Works well with any VGA, DVI, HDMI connected display, and on any PC running Windows® 2000, Windows® XP, Windows® Vista, and Windows® 7. See below for models supporting Mac®
- Plugs into the host computer system or docking bay in a matter of seconds, quickly helping you get the most out of your PC operating environment
- Eliminates the hassle of installing a second video card
- Provides a simple, cost effective solution that can be used on multiple PCs

### Applications

- Notebook, netbook or desktop
- Run multiple applications on different screens
- Can be used on projector, CRT or LCD monitor
- Word processing, Excel
- Up to 5 displays can be added (5 adapters needed)

### Accessories

- 6 Foot VGA Cable: MXT101MMHQ
- 6 Foot DVI Cable: DVIMM6
- 6 Foot HDMI Cable: HDMIMM6
- DVI to HDMI Adapter: HDMIDVIFM (USB2DVI)
- DVI to VGA Adapter: DVIVGAMF (USB2DVI)

\*Note: These products are not intended to be used for 3D games or 1080p Video.
