

3.5in SATA to CompactFlash SSD Adapter Card for 3.5 Drive Bay

StarTech ID: 35BAYCF2SAT

This 3.5in SATA to CompactFlash SSD Adapter Card allows you to connect a CompactFlash card to a host computer through a Serial ATA data port - a cost-effective solution that lets you use solid state storage in place of a SATA hard disk drive.

The adapter includes a 3.5in bracket that lets you mount it in the front or rear panel of the computer case, suitable for any 3.5in drive bay or available expansion slot - providing easy access to the CF slot. Once the adapter is installed in the computer, the CompactFlash card can be used as an ejectable, bootable drive - providing full read and write access to the CF card, as if it were a SATA hard drive.

Applications

- Use your compact flash card as a bootable and removable device
- Excellent for swapping operating systems quickly without having to take your computer apart.
- Connect your compact flash card to a SATA slot

Features

- Quick and driver free installation into any SATA slot
- Fully compatible with Compact Flash Type I/II and IBM Micro-drive
- Allows Compact flash card to be used as bootable storage
- Easy to use jumpers offer simple master/slave drive setting.
- Can be mounted in the front or rear panel of your case, to fit into any 3.5" bay or available expansion slot
- Easily swap cards in and out with built-in push button ejector
