

3.5in Bay Ejectable Multi Memory Card Reader

StarTech ID: 35FCREADREM

Use your flash cards on the go! StarTech.com's 3.5" bay multi-panel gives you a removable flash card reader, plus two USB 2.0 ports, all in the same bay.

The portable 7-in-1 card reader lets you transfer music, pictures, and other data to and from your favorite flash media devices without having to connect them to your computer. Plus, just eject the removable reader from the bay and take card-reading capabilities wherever you go! Accepts the seven most popular formats:

- Compact Flash I/II
- IBM Micro Drives
- Smart Media
- Secure Digital
- Multi-Media
- Memory Sticks
- MS Pro cards

With no need for an external power adapter, the compact removable reader is perfect for lightweight travel. Eliminate the hassle of physically connecting every digital device to your computer, and enjoy card-reading capabilities anywhere, with the FCREADREM from StarTech.com.

Applications

- Transfer data between your computer and the following supported memory cards formats: Compact Flash I & II, IBM Micro Drive, Smart Media Card, Secure Digital Card, Multi-Media Card, Memory Sticks and MS Pro Card
- Connect USB 2.0 peripherals to your desktop computer

Features

- Easily drag and drop files, pictures and music files for editing and storage
- Panel fits easily into a 3.5" bay on your desktop computer
- Removable card reader portion of the unit connects to a laptop computer through a USB port and requires no external power adapter
- Works with Compact Flash I & II, IBM Micro Drive, Smart Media Card, Secure Digital Card, Multi-Media Card, Memory Sticks and MS Pro Cards
- Adds two USB 2.0 ports to your desktop computer with data transfer rates of up to 480 Mbits/sec
- Requires no external power adapter
- USB 2.0 compliant and backward compatible with the USB 1.1 standard
- Low power consumption preserves notebook computer battery life
