

DVI and Digital Audio to HDMI® Converter

StarTech ID: DVI2HDMI

This DVI and Digital Audio to HDMI® Converter combines DVI-D video and corresponding audio outputs, into a single HDMI output.

The converter provides an economical solution for connecting devices with DVI-D digital video and SPDIF audio outputs to a monitor/television display with HDMI input - a cost-effective way to enjoy the space-saving benefits of HDMI, saving the expense of upgrading audio/video output devices for compatibility with HDMI.

Applications

- Convert digital DVI and digital audio to HDMI® - ideal for displays that do not have a DVI port or devices that can not output HDMI signals

Features

- Provides signal amplification and equalization for incoming TMDS data to ensure optimal signal quality
- Supports two channel stereo, Dolby digital 5.1, and DTS 5.1 sound input and output
- Supports resolutions up to 1920x1200 or 1080p input and output
