

USB to ExpressCard Adapter Ideal for Wireless Broadband Cards

StarTech ID: ECU2USB

This USB to ExpressCard Adapter allows ExpressCards to be used with any USB-capable computer, making it ideal for installing Aircards (broadband ExpressCards) or other USB based ExpressCards quickly, and easily.

Even if you don't have an ExpressCard slot available on a laptop or desktop PC or Mac, the ExpressCard to USB Adapter allows USB-based ExpressCards to be connected to the computer through a USB connection.

A perfect solution for getting the most value from your ExpressCards, the ExpressCard to USB Adapter can be swapped back and forth between a notebook and desktop PC or Mac computer, allowing you to install the ExpressCard on either system - eliminating the need to purchase duplicate I/O cards for the desktop computer.

Applications and Solutions

- Also works with and USB Based ExpressCard, i.e. card readers, USB hubs, legacy ports, etc.
- Great for use with broadband modems allowing you to connect to the web on any computer with a USB port

Features

- Easy installation, no drivers required
- Plug and Play, and hot swap support saves time from having to restart your computer
- Support data transfer rates up to 480Mbps when used on a USB 2.0 port
