

120x25mm Adjustable Speed Dual Ball Bearing Computer Case Fan w/ TX3

StarTech ID: FAN12X25ADJ

This PC Case Fan measures 12cm x 12cm x 2.5cm and offers polished aluminum construction, helping to circulate cool air into the case or exhaust warm air out, while making an attractive addition to a PC case.

To deliver a reliable PC cooling solution, the PC Case fan features a dual ball-bearing design and speed adjustment; the 12cm x 12cm x 2.5cm PC Fan is designed for durability and constructed of top quality materials to deliver a long-lasting solution for keeping your computer cool.

Backed by 2-year warranty and free lifetime technical support.

Applications and Solutions

- Used in computer cases
- Also used as a replacement aluminum case fan

Features

- Protects your computer from heat and increases the life of your system components
- Polished aluminum case fan
- Dual ball bearing motor
- High efficiency fan-blade design capable of moving up to 38 CFM
- Speed sensor output to the motherboard

Technical Specifications

- Warranty: 2 Years
- Air Flow Rate: 72.94
- Product Height: 4.72 in [120 mm]
- Product Length: 4.72 in [120 mm]
- Noise Level: 30
- Number of Conductors: 3
- Carton Quantity: 30
- RPM: 2000~1200
- Shipping (Package) Weight: 0.82 lb [0.37 kg]
