

60x60mm Socket 370/A Intel/AMD CPU Cooler Fan with Heatsink and Copper Base

StarTech ID: FAN370CU

Proper cooling systems are arguably the most important part of a fast-running, interruption-free computer. Without adequate cooling, workstations can overheat causing CPU slowdowns and system freezes translating into downtime. Fans like the FAN370CU offer great cooling at a great price. Suited for overclocked Pentium III and AMD Athlon environments, this super-duty socket 370/A CPU cooler keeps your computer running at optimal temperatures.

Applications

- AMD Athlon XP CPUs up to 1900+
- Intel Celeron and Pentium III CPUs at 1.4 GHZ
