

80x25mm Adjustable Speed Dual Ball Bearing Computer Case Fan w/ TX3

StarTech ID: FAN8X25ADJ

StarTech.com's 8cm x 8cm x 2.5cm PC Aluminum case fan is an add-in cooling fan made from polished aluminum. This attractive case fan can be used to circulate cool air into the case or exhaust warm air out, preventing problems due to overheating components. A quiet running dual ball bearing DC motor coupled with a high efficiency blade design is sure to keep your system cool.

Applications

- Used in computer cases
- Also used as a replacement aluminum case fan

Features

- Protects your computer from heat and increases the life of your system components
- Polished aluminum case fan
- Dual ball bearing motor
- High efficiency fan-blade design capable of moving up to 37 CFM
- Speed sensor output to the motherboard
- 3 different speeds

Technical Specifications

Warranty	2 Years
Number of Conductors	3
Fan Bearing Type	Ball Bearing
Connector Type(s)	1 - Molex Fan (3 pin; TX3) Female
Fan RPM	3300 ~ 1500
Air Flow Rate	37.27 CFM
Noise Level	27 dBA
Color	Silver
Enclosure Type	Aluminum
Product Length	3.1 in [80 mm]
Product Height	3.1 in [80 mm]
Input Voltage	12 DC
Shipping (Package) Weight	0.4 lb [0.2 kg]
