

Computer PC Fan Failure Alarm with TX3 Connector

StarTech ID: FANALARM

The StarTech.com fan alarm alerts you when a fan it is connected to slows down considerably or stops working, potentially saving expensive components like CPUs from damage due to overheating. A distinctive audible chime starts playing that cannot be mistaken for any other computer sound. The unit supports the newer TX3 connector fans that have a built-in tachometer.

Applications and Solutions

- Monitor fan operation, to ensure components do not overheat

Features

- Alarm activates with siren when motor speed drops or stops completely
- Audible chime cannot be confused with other PC noises
- Compact design occupies minimal space inside computer case

Technical Specifications

- Warranty: 1 Year warranty
- Color: Black
- Connector Types: 1 - TX3 Female
- Carton Quantity: 100
- Shipping (Package) Weight: 0.04 lb [0.02 kg]
- Operating Voltage: 12V
- Dimensions: 0.625" diameter alarm module on a 10" long TX3 cable
- Connectors: 3-Pin TX3 Molex Male, 3-Pin TX3 Molex Female
- Compatibility: Works with any fan with the 3-pin TX3 connector
- Alarm Noise Level: 70 dB
