

Computer PC Fan Failure Alarm with TX3 Connector

StarTech ID: FANALARM

The StarTech.com fan alarm alerts you when a fan it is connected to slows down considerably or stops working, potentially saving expensive components like CPUs from damage due to overheating. A distinctive audible chime starts playing that cannot be mistaken for any other computer sound. The unit supports the newer TX3 connector fans that have a built-in tachometer.

Applications

- Monitor fan operation, to ensure components do not overheat

Features

- Alarm activates with siren when motor speed drops or stops completely
- Compact design occupies minimal space inside computer case
- Audible chime cannot be confused with other PC noises

Technical Specifications

Warranty	2 Years
Connector Type(s)	1 - Molex Fan (3 pin; TX3) Female
General Specifications	0.625" diameter alarm module on a 10" long TX3 cable
General Specifications	12V
General Specifications	3-Pin TX3 Molex Male, 3-Pin TX3 Molex Female
General Specifications	70 dB
General Specifications	Works with any fan with the 3-pin TX3 connector
Color	Black
Shipping (Package) Weight	0 lb [0 kg]
Included in Package	1 - PC CPU Fan Failure Alarm
