

Copper CPU Cooler Fan and Heatsink for AMD Athlon

StarTech ID: FANC725A

Maximize the cooling of your AMD Athlon XP or MP CPU with this new all-copper powerhouse HSF from StarTech.com. A breezy 7x2.5 cm fan combined with a large ultra-cool bonded-fin copper heatsink keeps AMD CPUs of 2800+ speed rating and higher at frosty temperatures.

Applications

- AMD Athlon desktop PCs

Features

- High performance, reliable, 7x2.5cm ball bearing fan
- Built-in speed sensor allows the system to monitor fan speed and operating status
- Fits all AMD Socket A and Intel® Socket 370 CPUs

Technical Specifications

Warranty	2 Years
Fan Bearing Type	Ball Bearing
Connector Type(s)	1 - Molex Fan (3 pin; TX3) Female
Fan RPM	3800
Air Flow Rate	42 CFM
General Specifications	
General Specifications	12V
General Specifications	2.65 x 2.2 x 1.6
General Specifications	2.7 x 2.7 x 0.94
General Specifications	3 – Lead TX3 motherboard connector
General Specifications	35
General Specifications	362 grams
General Specifications	3800
General Specifications	67 x 57 x 40
General Specifications	70 x 70 x 24
General Specifications	Athlon XP (2800+) up to 2.25 GHz
General Specifications	Ball Bearing
General Specifications	Celeron up to 1.4 GHz
General Specifications	Copper
General Specifications	Duron up to 2.25 GHz
General Specifications	K6 series up to any speed
General Specifications	Pentium III up to 1.4 GHz
General Specifications	Plastic
General Specifications	Socket A & Socket 370
Color	Black
Product Weight	12.8 oz [362 g]
Shipping (Package) Weight	1 lb [0.5 kg]
Included in Package	1 - Copper CPU Heatsink Fan for AMD Athlon
