

3.5in Hard Drive Bracket Kit for 5.25in Front Bay with Triple Fans

StarTech ID: FANDRIVE

This front panel HDD cooler features three 40mm x 40mm x 20mm ball bearing fans, helping to eliminate the heat that can build up at the front of a PC case as a result of typical drive/system operation.

The HDD cooler can be mounted in an available 5.25in half-height drive bay, with a hard drive positioned directly behind it. The HDD cooler includes 3.5in to 5.25in adapter brackets, allowing the cooler to be used with either size of drive.

The HDD cooler draws fresh, cool external air into the case through a removable, cleanable filter and blown directly over the hard drive by the quiet-running ball bearing fans - an efficient, nearly silent solution for extending the life of hot running 7200 RPM, 10000, and 15000 RPM IDE and SCSI hard drives in servers.

Applications and Solutions

- Provides extra cooling for your hard drive

Features

- Fits into a standard 5.25" drive bay
- Hardware mounting kit provided for 3.5" hard drives
- Includes power splitter cable to draw power from your PC without reducing the total number of existing power connectors
- Uses three high-efficiency, ultra-quiet cooling fans

Technical Specifications

- Warranty: 1 Year warranty
- Air Flow Rate: 4.17 (each)
- Color: Beige
- Connector Types: 1 - LP4 Male
- Fan Bearing Type: Ball Bearing
- Carton Quantity: 50
- RPM: 5000 +/- 10%
- Shipping (Package) Weight: 0.6 lb [0.27 kg]
- Hard Drive Requirements:
- Bay: 5.25 inches
- Hard Drive Size: 3.5 inches
- Hard Drive Type : IDE & SCSI
- Weight :
- Lbs: 0.55
- Grams : 249
- Fan Type: Ball Bearing
- Construction:
- Fan: Plastic
- Enclosure: Plastic
- Number of Fans: 3
- Noise Level (dB): 38
- Filter Type: Mesh
- Mounting Kit: Included
- Life Expectancy: 45,000 hrs
- Connector: LP4

- Fan Dimension:
- Inches: 1.57 x 1.57 x 0.78
- Millimeters : 40 x 40 x 20
- Enclosure Dimension:
- Inches: 5.91 x 1.58
- Millimeters: 150 x 40
