

3.5in Hard Drive Bracket Kit for 5.25in Front Bay with Dual Fan

StarTech ID: FANDRIVE2

The StarTech.com dual fan hard drive cooling kit provides maximum airflow for hot-running hard drives, preventing overheating failures and extending the life of the drive. The fan unit mounts in any free 5.25 inch half height drive bay, and the hard drive is mounted directly behind it using the supplied 3.5 inch to 5.25 inch adapter brackets. Fresh cool external air is drawn into the case through a removable, cleanable filter and blown directly over the hard drive by 2 quiet running fans. Perfect for extending the life of hot running 7200 RPM, 10,000, or 15,000 RPM IDE and SCSI hard drives in servers or workstations.

Applications and Solutions

- Provides extra cooling for your hard drive

Features

- Extends hard drive life and reliability
- Fits into a standard 5.25" drive bay
- Hardware mounting kit provided for 3.5" hard drives
- Includes power splitter cable to draw power from your PC without reducing the total number of existing power connectors
- Uses two high-efficiency, ultra-quiet cooling fans

Technical Specifications

- Warranty: 1 Year warranty
- Air Flow Rate: 4.17 (each)
- Color: Beige
- Connector Types: 1 - LP4 Male
- Fan Bearing Type: Ball Bearing
- Carton Quantity: 50
- RPM: 5000 +/- 10%
- Shipping (Package) Weight: 0.53 lb [0.24 kg]
- Hard Drive Requirements:
 - Bay : 5.25 inches
 - Hard Drive Size : 3.5 inches
 - Hard Drive Type : IDE & SCSI
- Weight :
 - Lbs : 0.45
 - Grams: 204
- Fan Type: Sleeve Bearing
- Construction:
 - Fan : Plastic
 - Enclosure : Plastic
- Number of Fans: 2
- Noise Level (dB): 36
- Filter Type: Mesh
- Mounting Kit: Included
- Life Expectancy: 15000 hrs

- Connector: LP4
- Fan Dimension:
- Inches : 1.57 x 1.57 x 0.78
- Millimeters : 40 x 40 x 20
- Enclosure Dimension:
- Inches : 5.91 x 1.58
- Millimeters : 150 x 40
