

5.25in Front Bay Mount Dual Fan Hard Drive Cooler

StarTech ID: *FANDRIVE2BK*

This dual fan hard drive cooler provides maximum airflow for hot-running hard drives, preventing overheating failures and extending the life of the drive.

The fan unit mounts in any free 5.25 inch half height drive bay, and the hard drive is mounted directly behind it using the supplied 3.5 inch to 5.25 inch adapter brackets; the fans draw fresh external air into the case through a removable, cleanable filter and blows the cooler air over the surface of the hard drive - a cost-effective solution that can help extend the life of hot running 7200 RPM, 10,000, or 15,000 RPM IDE and SCSI hard drives in servers or workstations.

Applications and Solutions

- Provides extra cooling for your hard drive

Features

- Extends hard drive life and reliability
- Featuring new black bezel for today's systems
- Fits into a standard 5.25" drive bay
- Hardware mounting kit provided for 3.5" hard drives
- Includes power splitter cable to draw power from your PC without reducing the total number of existing power connectors
- Uses two high-efficiency, ultra-quiet cooling fans

Technical Specifications

- Warranty: 1 Year warranty
- Air Flow Rate: 4.17
- Color: Beige
- Connector Types: 1 - LP4 Male
- Fan Bearing Type: Ball Bearing
- Carton Quantity: 50
- RPM: 5000 +/- 10%
- Shipping (Package) Weight: 0.55 lb [0.25 kg]
- Bay : 5.25 inches
- Connector: LP4
- Enclosure : Plastic
- Fan : Plastic
- Fan Type: Sleeve Bearing
- Filter Type: Mesh
- Hard Drive Size : 3.5 inches
- Hard Drive Type : IDE & SCSI
- Weight: 0.45 lbs.
- Life Expectancy: 15000 hrs
- Bezel Dimensions: 150 x 40mm 5.91 x 1.58 in.
- Fan Dimensions: 40 x 40 x 20mm 1.57 x 1.57 x 0.78 in.
- Mounting Kit: Included
- Noise Level (dB): 36
- Number of Fans: 2
