

## 3.5in Black Triple Fan Hard Drive Cooler for 5.25in Front Bay

StarTech ID: FANDRIVEBK

This triple fan hard drive cooler provides maximum airflow for hot-running hard drives, preventing overheating failures and extending the life of the drive.

The fan unit mounts in any free 5.25 inch drive bay, and the hard drive is mounted directly behind it using the supplied 3.5 inch to 5.25 inch adapter brackets; the fans draw fresh external air into the case through a removable, cleanable filter and blows the cooler air over the surface of the hard drive - a cost-effective solution that can help extend the life of hot running 7200 RPM, 10,000, or 15,000 RPM IDE and SCSI hard drives in servers or workstations.

### Applications

- Keep a 3.5in hard drive running cooler for increased reliability
- Keep a high performance hard drive running cooler
- Increase system airflow for better air circulation and cooling in hotter environments

### Features

- Standard 5.25in front bay form factor
- Mounting bracket for almost any 3.5in hard drive
- Three 40mm ball bearing cooling fans
- Cleanable air filter

## Technical Specifications

Warranty	2 Years
Number of Drives	1
Drive Size	3.5in
Fans	3 - 40 mm
Fan Bearing Type	Ball Bearing
Filter Type	Mesh
Connector Type(s)	1 - LP4 (4 pin; Molex Large Drive Power) Male
Fan RPM	5000 +/- 10%
Air Flow Rate	4.17 CFM
Noise Level	38 dBA
MTBF	45,000 Hours
Color	Black
Enclosure Type	Plastic
Product Width	5.9 in [150 mm]
Product Height	1.6 in [40 mm]
Product Weight	8.8 oz [249 g]
System and Cable Requirements	Available 5.25in front bay
Shipping (Package) Weight	0.6 lb [0.3 kg]
Included in Package	1 - 5.25in Bay with Fans
Included in Package	1 - 3.5in HDD Mounting Bracket
Included in Package	1 - Set of Mounting Screws
