

Socket 423 P4 Ball Bearing CPU Cooler Fan with Heatsink

StarTech ID: FANP4

This high quality Socket 423 CPU cooler is a combination heatsink and fan designed specifically to cool Pentium 4 processors.

The cooler features an extra-large heatsink and quiet-running 6cm brushless ball bearing DC fan with high-efficiency blade design capable of moving 21.46 CFM of air.

Providing broad compatibility and peace of mind, the Socket 423 CPU fan/heatsink can be powered using a 3-lead TX3 connection to the motherboard, allowing the system to monitor both fan speed and operating status.

Features

- Designed to fit all Pentium 4 processors with 423 pin socket

Technical Specifications

Warranty	2 Years
Fan Bearing Type	Ball Bearing
Connector Type(s)	1 - Molex Fan (3 pin; TX3) Female
Fan RPM	4500
Air Flow Rate	22.04 CFM
General Specifications	
General Specifications	12V
General Specifications	2.36 x 2.36 x 0.78
General Specifications	249 grams
General Specifications	3.5 x 2.5 x 1.6
General Specifications	30
General Specifications	4500
General Specifications	60 x 60 x 20
General Specifications	90 x 62 x 40
General Specifications	Aluminum
General Specifications	Ball Bearing
General Specifications	Pentium 4 up to 2 GHz
General Specifications	Plastic
General Specifications	Socket 423
General Specifications	TX3 Motherboard
Color	Black
Product Weight	8.8 oz [249 g]
Shipping (Package) Weight	0.6 lb [0.3 kg]
Included in Package	1 - Socket 423 Pentium 4 Cooling Fan
Included in Package	2 - Metal Brackets
Included in Package	1 - Bags of Silicon
