

2.5in Silicon Laptop Hard Drive Protector Sleeve with Connector Cap

StarTech ID: HDDSLEV25

This silicon hard drive protector sleeve provides a layer of sturdy protection against potential shock/impact damage for your uninstalled 2.5in hard drives.

The hard drive protector features a durable silicon design and a ventilation hole in the top for enhanced heat dissipation.

This versatile hard drive sleeve offers the flexibility to fit most IDE and SATA/SAS 2.5in HDDs. The silicon sleeve features a tip cover that's specifically designed to protect the hard drive interface ports during transportation, but can be removed for installation.

An ideal solution for keeping unused drives safe while not in use, the silicon drive sleeve is a perfect addition to our "bare drive" (trayless) hard drive enclosures.

Applications and Solutions

- Ideal for drives used in docking stations and tray-less hot swap bays.
- Protect a HDD against shock, impact, and connector damage
- Provide protection for 2.5 in desktop hard drives

Features

- Allows hard drives to be stackable with greater security
- Fits most 2.5 in desktop hard drives
- Provide sturdy protection for shock and impact
- Removable end for interface protection
- Ventilation holes for greater heat dissipation

Technical Specifications

- Warranty: 1 Year warranty
- Color: Clear
- Carton Quantity: 90
- Shipping (Package) Weight: 0.33 lb [0.15 kg]
- Compatible Drives : 2.5" EIDE
- Compatible Drives : 2.5" SATA
- Compatible Drives : 2.5" SAS
- Product Weight: 0.85 oz [24 g]
- Product Height: 0.24 in [6 mm]
- Product Width: 2.87 in [73 mm]
- Product Length: 4.13 in [105 mm]
- Operating Temperature: 5°C to 80°C (41°F to 176°F)
- Humidity: 8% ~ 90% RH
- Storage Temperature: -40°C to 80°C (-40°F to 176°F)
