

Dual 2.5in to Single 3.5in IDE Hard Drive Adapter

StarTech ID: IDE35252X

This IDE HDD Adapter allows you to use two 2.5in IDE hard drives in place of a single 3.5in IDE hard drive.

Simply mount two 2.5in IDE hard drives to the IDE35252X adapter and connect the mounted drives to the onboard 44-pin IDE connectors provided. The individual (44-pin) connections are then connected to the computer power supply using a single 40-pin IDE power connection.

This convenient IDE storage adapter also allows users to designate the installed 2.5in drives to operate as either a master or slave drive, and provides a drive activity LED indicator for easy monitoring.
