

IDE 44 Pin to Dual Compact Flash SSD Adapter

StarTech ID: IDE442CF

This adapter features one IDE 44-pin male connector and two Compact Flash ports, allowing you to connect two Compact Flash (CF) type media cards to a laptop computer in place of a 2.5in IDE hard drive.

A true Do-it-yourself SSD solution, the CF to IDE adapter allows Compact Flash, Compact Flash 2, or MicroDrive media to be used as a bootable hard drive on a notebook computer and requires no software or driver installation.

Applications

- Use two Compact Flash cards as one bootable 2.5 inch IDE hard drive
- Ideal for system builders and testers requiring a convenient way to swap drives and operating systems

Features

- Compatible with CF/II, MicroDrive™
- Use your Compact Flash cards to act as the primary bootable device
- On-board LED to show drive status
- All-in-one onboard solution takes care of conversion. No software/drivers or cables required
- Convert your CF for use as a SSD (solid state drive)
- With no moving parts, provides a silent operation that is resilient to environmental factors while reducing overall power consumption
- Reading-performance, anti-shock ability and tolerance of the the temperature difference are better than traditional hard drives

Technical Specifications

Warranty	Lifetime
General Specifications	1 x IDE 44 pin (2.5 inch drive connector)
General Specifications	2 x Compact Flash Slots
General Specifications	Compact Flash Type I, and II, and MicroDrive
General Specifications	Hot swapping not supported
Product Weight	0.7 oz [20 g]
Shipping (Package) Weight	0.3 lb [0.1 kg]
Included in Package	1 - 1 x IDE to Dual Compact Flash Adapter
Included in Package	1 - 1 x Instruction Manual
