

8 Port RS-232 Serial Connector Box Hub for the PCI232INTE Intelligent Serial Card

StarTech ID: INTEBOX8

Designed for use with our PCI232INTE intelligent serial card, the INTEBOX8 lets you quickly add 8 RS-232 serial ports to your system. Up to 8 INTEBOX8s can be daisy-chained together to provide you with 64 high-speed ports. Perfect for industrial applications, this RS-232 connector box works with our intelligent serial card to improve your system performance.

Note: The INTEBOX8 requires a PCI232INTE.

Applications and Solutions

- Also used in environments using serial networking devices, high speed modems, monitoring equipment, long distance communication devices and printers
- Factory/Office automation
- Ideal for commercial and industrial applications such as POS networks, ATMs, and bank teller stations
- Industrial process control
- Remote serial device control

Features

- Compatible with all RS-232C interface devices
