

Black USB Powered Laptop Cooler

StarTech ID: NBCOOLER

This simple notebook cooler can help to keep your laptop running at peak performance! The internal heat generated by laptop components can weaken system performance and cause instability. By keeping the laptop cooler, you can help to ensure that your notebook endures the performance you demand.

Designed to work with any laptop computer size, the cooler features four 60mm fans that pull heat away from the base of the laptop, extracting the hot air for better circulation and dissipation within the computer casing.

NBCOOLER features variable speed settings that let you adjust the fan speeds to suit the amount of heat coming from the laptop, up to a maximum airflow rating of 40 CFM.

Applications and Solutions

- Keep a laptop with upgraded hardware running cooler
- Provide increased cooling to a laptop/netbook over the built in fans
- Provide a stable base while using the laptop on an unstable surface like a lap or bed
- Travelers who need the extra cooling while on the road and do not always have access to an electrical outlet

Features

- Portable, lightweight plastic design
- Four 60mm cooling fans with variable speed control
- Fits virtually any size laptop/netbook
- Powered directly from USB; no external power required

Technical Specifications

- Warranty: 2 Years
- Air Flow Rate: 40 CFM
- Fan Dimensions: 60 x 60 x 18mm
2.36 x 2.36 x 0.71in
- Product Height: 0.98 in [25 mm]
- Input Current: 800mA
- Product Length: 12.8 in [325 mm]
- Noise Level: <24 dBA
- Carton Quantity: 10
- RPM: 1900-2600 RPM
- Shipping (Package) Weight: 2.52 lb [1.14 kg]
- Product Weight: 22.95 oz [650 g]
- Product Width: 10.39 in [264 mm]
