

1 Port PCI to CardBus PCMCIA Adapter Card

StarTech ID: *PCI2PCMCIA1*

This PCI to CardBus PCMCIA Adapter Card lets you use your laptop PC cards (CardBus/PCMCIA) on a desktop computer.

Connecting to the host computer through simple installation in a PCI slot, the CardBus/PCMCIA to PCI Adapter Card integrates seamlessly with Windows operating systems with no loss of performance or features compared to conventional (laptop) installation.

The adapter card supports both the 16-bit PCMCIA and 32-bit CardBus standards, providing broad compatibility with your laptop adapter cards to ensure maximum convenience.

Applications

- Connect USB 2.0, IEEE-1394 FireWire, RS-232 Serial, LAN/Network, Serial ATA, modem laptop cards as well as other laptop cards to your desktop computer
- Connect external hard drives, printers, PDAs, webcams, digital cameras, scanners, CD-R/RWs, Zip® drives, memory card readers, as well as many other peripherals to both your laptop and desktop systems

Features

- PCI Specification Revision 2.2 compliant
- PC Card Standard Release 8.0 Specification compliant
- Supports 16-bit (PCMCIA 2.1/JEIDA 4.2) and 32-bit (CardBus) PC cards
- Easy plug-and-play installation

Technical Specifications
