

5 Channel PCI Sound Adapter Card with AC97 3D Audio Effects

StarTech ID: PCISOUND5CH

This 5 Channel PCI Sound Card offers a cost-effective multimedia solution, delivering high quality 5.1 channel audio that's ideal for gaming, HTPC applications or any surround sound configuration.

Providing true Full-Duplex playback/capture with different sampling rates (up to 48KHz stereo), the PCI sound card supports simultaneous recording and playback, and features a GAME/MIDI port that lets you use a Serial joystick or other gaming device.

This high quality PCI Sound Card is backed by StarTech.com's Lifetime Warranty and free lifetime technical support.
