

PCI Express to ExpressCard Adapter - Front Bay

StarTech ID: PEX2EC35

This PCI Express to ExpressCard Front Bay offers the convenience of being able to use ExpressCards on a desktop computer - eliminating the cost of having to buy duplicate cards to perform the same function among desktop and notebook operating environments.

Plus, the PCI Express to ExpressCard Front Bay fits neatly into a 3.5in drive bay to provide easy, front panel access to the added ExpressCard slot and includes an alternate bracket for installation in a 5.25in bay.

Applications and Solutions

- Connect USB 2.0, IEEE-1394 FireWire, RS-232 Serial, LAN/Network, Serial ATA, modem laptop cards as well as other laptop cards to your desktop computer
- Use the PCI Express to ExpressCard adapter for your wireless broadband connections and use your internet connection on your laptop or desktop PC.

Features

- Compliant with PCI Express Base Specification 1.0a
- Internal USB Host port for support of USB based ExpressCards
- Supports both 34 and 54 form factor ExpressCards
