

20 and 24 Pin ATX Power Supply Tester

StarTech ID: PSUTEST20

This 20/24 Pin ATX Power Supply Tester offers a convenient way to check this power supply functions on hand, to save time and possible expense.

The ATX Power supply tester offers a built-in 25W 5.4ohm load to generate steady outputs, +5V, +3.3V and 12V leads for volt metering, making output voltages easy to check.

With straightforward LED indication to let you know your Power Supply is functioning properly, the ATX power supply tester offers the perfect solution for saving time and ensuring system stability.

Applications

- Save diagnostic time with our universal ATX Power Supply Tester

Features

- Allows quick and easy testing of ATX power supplies
- Built-in 25W 5.4 ohm load generates steady outputs for comprehensive testing
- POWER_OK green LED provides simple indication that power supply is working
- +5V, +3.3V & 12V leads for volt metering to check output voltages

Technical Specifications

Warranty	Lifetime
Product Length	8.1 in [206 mm]
Product Width	2.1 in [53 mm]
Product Height	0.6 in [15 mm]
Product Weight	2.5 oz [70 g]
Shipping (Package) Weight	0.2 lb [0.1 kg]
Included in Package	1 - ATX PSU Tester
