StarTech.com's black RAIDBAY3BK is the perfect solution for building hot-swap SCSI RAID arrays. Up to (3) 3.5 inch drives can be installed in this all aluminum chassis, each in their own independent removable drive drawer. The frame and drawer design of the 5.25 inch full height (2 bay slots) chassis can increase the number of drives that can be installed inside a case by 33%

Front and rear ball bearing fans ensure plenty of air movement over the drives to maintain ideal operating temperatures for long service life and less downtime.
