

# RK1219WALH INSTALLATION GUIDE

This guide will describe the how to mount your RK1219WALH.

## Mounting Holes:

To attach the RK1219WALH to a wall, fasten the back of the unit onto four evenly distributed wall mounting screws. The hinged rear door can be removed from the cabinet prior to mounting on the wall, and then once mounted the front section of the cabinet can be re-hung on the hinges.

## Access Panels:

With two removable side panels, RK1219WALH provides access from any side, once attached to the wall. A rear-panel hinge provides easy access by swinging the whole cabinet open, while a transparent glass pane provides a clear view of internal items.
