

RK1219WALL INSTALLATION GUIDE

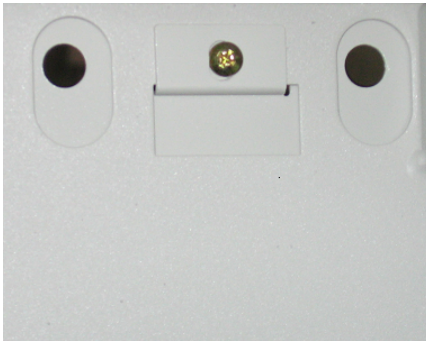

This guide will describe the how to mount your RK1219WALL.

Mounting Bracket:

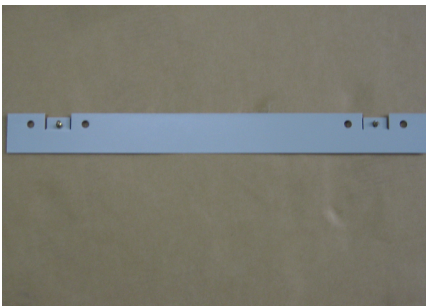

The RK1219WALL has a mounting bracket that needs to be detached before mounting onto a wall.

Detach mounting Bracket:

To detach the mounting bracket remove the Phillips Type Screws on the inside of the RK1219WALL.

Mounting Bracket Removed:

This bracket is fully removed from the cabinet and is now able to be mounted on a wall. Finally, place the wall cabinet onto the bracket that has been mounted and reattach the Phillips Screws that have been removed.
