

2 Port HDMI® Video Splitter and Signal Amplifier

StarTech ID: ST122HDMI

This HDMI® video splitter lets you share HDMI signals between two displays and acts as a signal amplifier that allows you to locate your HDMI monitors up to 50 feet (15 m) away from your computer while maintaining display resolutions up to 1080p.

The HDMI video splitter is easy to install and supports resolutions of up to 1080p, even at extended distances. It will provide you with flawless digital video that will help you get the most from your HDMI-enabled monitors, projectors, or plasma screens.

This product is backed by StarTech.com's 2-year warranty and FREE lifetime tech support.

Applications

- Connect HDMI® enabled projectors, monitors, plasma screens, commercial billboards, and wall display systems
- Ideal for classroom, corporate, healthcare, professional A/V, control centres, conference halls, and retail environments.

Features

- Built-in EDID simulator and HDCP keyset allows each output to work independently when connecting to a HDMI display.
- Splits an HDMI® source up to 2 outputs without signal loss.
- Supports a wide range of PC and HDTV resolutions-from VGA to UXGA and 480p to 1080p.
- Can be cascaded up to 3 layers
- HDCP 1.1 Compliant

Technical Specifications
