

## VGA Video Extender over Cat 5 with Audio

StarTech ID: ST122UTPA

The ST122UTPA VGA Video Extender over Cat 5 with Audio allows up to 4 (2 local and 2 remote) monitors to be connected to a single PC. The video signal and corresponding audio are sent to the remote unit over standard 4 pair Category 5 or better (Cat 5e recommended) UTP cable, supporting extended video distances of up to 150m / 500ft.

The VGA video and audio extender includes a local transmitter and a remote receiver, providing an out-of-the box solution that's perfect for point to point digital signage applications that require audio. To simplify installation, this kit also includes a mounting bracket for the ST122UTPA receiver that is VESA compliant and installs onto displays or mounts for a tidy setup.

Backed by a StarTech.com 2-year warranty and free lifetime technical support.
