

VGA Wall Plate Video Extender over Cat5 with Audio

StarTech ID: STUTPWALLA

This VGA Wall Plate Cat5 Video with Audio Extender kit includes both transmitter and receiver units, allowing you to make out-of-the-way connections from a VGA video and audio source to a remote monitor location. The transmitter and receiver wall plates can be placed in a wall or ceiling gang for a cleaner, more professional VGA installation, supporting connection distances up to a maximum of 300m (950ft).

Offering maximum versatility and convenience, the VGA wall plate kit is easy to install; simply wallmount the transmitter unit near the intended VGA source, then wallmount the receiver unit near the monitor/projector. The VGA transmitter and receiver units can then be linked using standard Cat5e or Cat6 cable to provide a high quality video and stereo audio extension while concealing the cable for a neatly placed installation.

Both VGA transmitter and receiver units use a 12V DC terminal block connector behind the unit that offers a more secure and economical installation; using Cat5/Cat6 cable to extend the VGA signal offers a cost-effective solution based on the broad availability of networking cable which is far more flexible than VGA cable, not to mention less expensive.

Unlike some video extension systems, our VGA extender wall plates also allow you to make use of an existing networking cable (Cat5, Cat6) infrastructure, eliminating the need to re-run cable in the event of an upgrade from VGA to another video standard, by simply swapping out the wall plates.

"I would highly recommend this to anyone or any business looking for an easy and more efficient way to present."

Applications

- Ideal for Pro A/V installers and integrators looking for an easy solution to extend VGA video and audio using Cat5 cabling
- Applications including:
 - Education
 - Corporate
 - Digital Signage
 - Healthcare
 - Hospitality and Entertainment
 - Houses of Worship

Features

- VGA video and audio extension up to 300m/950ft (Please see Specifications for resolutions supported at various distances)
- Uses Cat5 cabling to extend VGA and audio connections, making installation easy with lightweight, flexible connections that can fit through small conduits
- Powering the STUTPWALLA uses a terminal block for a more secure connection
- Can be used with existing in-wall Cat5 cabling

Technical Specifications

Warranty	2 Years
Ports	1
Cabling	Cat 5 UTP
Local Unit Connectors	1 - RJ-45 Female
Local Unit Connectors	1 - Terminal Block (2 Wire)
Local Unit Connectors	1 - VGA (15 pin; High Density D-Sub) Female
Local Unit Connectors	3.5 mm Mini-Jack (3 Position) Female
Remote Unit Connectors	1 - RJ-45 Female
Remote Unit Connectors	1 - Terminal Block (2 Wire)
Remote Unit Connectors	1 - VGA (15 pin; High Density D-Sub) Female
Remote Unit Connectors	3.5 mm Mini-Jack (3 Position) Female
Max Distance	300 m / 950 ft
Supported Resolutions	1920x1200 @ 50m(164ft) 1600x1200 @ 100m(328ft) 1280x1024 @ 180m(590ft) 1024x768 @ 200m(656ft) 800x600 @ 300m(984ft)
Audio Specifications	3.5mm Stereo Audio (2 channel)
Color	White
Enclosure Type	Steel
Product Length	4.1 in [105 mm]
Product Width	1.7 in [42 mm]
Product Height	1.5 in [38 mm]
Product Weight	4.8 oz [136 g]
LED Indicators	1 - Power LED
Power Adapter Included	Yes
Output Voltage	12 DC
Output Current	0.6A
Shipping (Package) Weight	2.9 lb [1.3 kg]
Included in Package	1 - VGA Wall Plate Video Extender with Audio - Transmitter and Receiver
Included in Package	1 - Terminal Block for Power Adapter
Included in Package	1 - Power Adapter
Included in Package	1 - Instruction Manual
