

USB S-Video and Composite Video Capture Device Cable with Audio

StarTech ID: SVID2USB2

The SVID2USB2 USB 2.0 S-Video/Composite video Capture Cable lets you connect devices that output S-Video or Composite video to a computer through an available USB 2.0 port. The cable also features two channel RCA stereo audio inputs that let you capture the audio accompanying the S-Video or Composite video signal.

The perfect solution for bridging a computer and an S-Video or Composite video source, the capture cable offers real time MPEG 1, MPEG 2 and MPEG 4 recording. Small enough to fit in the palm of your hand, the Capture Cable is a great solution for mobile applications that integrates seamlessly with laptop and desktop computers.

Backed by a StarTech.com 2-year warranty and free lifetime technical support.

Applications

- Convert VHS home movies to digital format
- Import recorded videos into your computer system for editing and make your own compilation
- Connect your VCR, camcorder, or any other analog video source to your desktop or notebook PC and capture your audio/video in MPEG 1/2/4 format

Features

- Small and lightweight for portability or on the go applications
- USB 2.0 transfer rates for high quality video capturing
- Choose from MPEG 1 / MPEG 2 / MPEG 4 video encoding
- Up to 30 fps motion capture capability at maximum resolution of 720x480(NTSC) / 720x576(PAL)
- Snapshot function allows you to capture still images
- Control brightness, contrast, and sharpness
- USB powered device - requires no external power adapter
- Supports NTSC, PAL, and SECAM

Technical Specifications

Warranty	2 Years
Audio	Yes
