

External USB 2.0 TV Tuner with Remote

StarTech ID: USB2TVTUNER

USB2TVTUNER lets you watch satellite, antenna, or cable TV, record your favorite TV programs, and play console gaming systems, on your laptop or desktop system! Comes with a full-function remote control, for living room comfort right in your office, bedroom, or dorm room. Kick back and relax while surfing up to 181 channels, and enjoy audio output via external speakers or your PC sound card. Or, use the included video editing software to capture still and motion pictures. Save money on the cost of a separate TV and VCR, and bring some fun to your workspace with the USB2TVTUNER. Backed by StarTech.com's 2-year warranty and FREE lifetime tech support.

Features

- Great for mobility, the USB2TVTUNER is small and easy to take wherever you go.
- Includes an external infrared remote control for easy channel switching
- Intuitive on-screen menu system for previewing and programming channels, screen captures, parental channel lockout, and other features
- Supports inputs from auxiliary A/V devices such as DVD player, VCRs, and game consoles
- Supports multiple video file output formats and resolutions, and includes Ulead VideoStudio SE video authoring software
- Capture video in MPEG1(VCD), MPEG2(DVD), and MPEG4(ASF).
