

4 Port USB IP Device Server
StarTech ID: USB4000IP

This USB network hub lets you share four USB peripheral devices over an IP network for access from multiple computers.

A simple and cost-effective resource sharing solution, the hub eliminates the need to purchase duplicate peripherals for each computer, by letting you reach USB devices from anywhere on your LAN, overcoming traditional USB cable connection distances.

Applications and Solutions

- Use multiple USB devices on your local area network allowing them to be shared and used by multiple PC's.

Features

- Easily access your USB devices on multiple PC's
- Traditional USB cable lengths limit you to 15 feet. With USB Ethernet device sharing you can use CAT5 cabling to extend cable lengths to further distances

Technical Specifications

- Warranty: 2 Years
- Humidity: 0~60% RH
- Maximum Data Transfer Rate: Supports 10/100 Mbps networks
- Operating Temperature: 0°C to 70°C (32°F to 158°F)
- OS Compatibility: Windows 2000/ XP(32/64bit)/ Vista(32/64bit)/ 7(32/64bit)/ Server 2008 R2
- Output Current: 2600 mA
- Carton Quantity: 50
- Storage Temperature: -40°C to 85°C (-40°F to 185°F)
- Shipping (Package) Weight: 0.77 lb [0.35 kg]
