

## VGA to HDMI Video Converter with Audio

StarTech ID: VGAHD2HDMI

The VGA2HDMI VGA HD to HDMI video converter with Audio allows you to convert an analog RCA audio signal and VGA video to a single HDMI cable. A great way to adapt your PC video signal enabling you to view multimedia content from your computer on your HDTV the way it was meant to be seen and heard.

This HD15/VGA (with RCA Audio) to HDMI format converter is a great way to wow your audience with the full power of digital content, supporting input resolutions of up to 1080p for HD and 1600x1200 for PC. The VGAHD2HDMI device also supports converting a Component signal to HDMI using the included Component to VGA adapter cable.

Backed by a StarTech.com 2-year warranty and free lifetime technical support.

### Applications and Solutions

- A simple solution for watching content stored on your computer, on your HDTV display
- Remove clutter at the back of your monitor/display, by replacing multiple cables with one HDMI cable
- Capture an audience's attention at trade shows and retail environments with HD content
- Present information in the clearest possible way, in professional presentations or lectures
- A perfect fit for your home theater configuration
