

Component VGA HDMI and Audio to HDMI Video Switch and Scaler

StarTech ID: VS310HD2HDMI

This versatile VGA and Component video switch supports analog HDTV RGB/YPbPr/YCbCr input, allowing you to switch between VGA, HDMI and Component video sources for output to your High Definition display.

The perfect solution for using Component/VGA video devices with an HDMI capable display without the cost of upgrading individual components (i.e. DVD Player, VCR), the Component/VGA switch offers true HD operation, with resolution support up to 1080p+.

An all-in-one multimedia switching solution, the VGA/Component video switch supports audio switching, allowing you to toggle between the desired video input as well as the accompanying audio stream. To make configuring your HD setup that much easier, the VGA/Component Video switch features a convenient On-Screen Display and automatic 3:2 and 2:2 pull-down detection/recovery, saving time and eliminating hassle.
