

4 to 1 HDMI Switch with Remote and RS-232 Control

StarTech ID: VS410HDMIR

Avoid the frustrations of having to swap out video devices because your display doesn't have enough HDMI inputs to accommodate them. With the Converge A/V VS410HDMIR, you can connect up to 4 devices with HDMI output (e.g. High Definition DVD players, Satellite Receivers, and Video Game Consoles) to a single HDMI input, saving hassle and costly upgrades.

With the added convenience of the included remote control, switching HDMI sources becomes as easy as the push of a button. For professional installations in commercial environments the VS410HDMIR can be controlled from remote locations using the built in RS-232 port.

Applications

- Retail
- Tradeshows
- Conference Halls
- Control Centres
- Professional A/V
- Corporate
- Healthcare
- Classrooms

Features

- Easy-to-use remote control and RS-232 Serial control for switching between devices
- HDMI 1.1, HDCP 1.1, and DVI 1.0 compliant
- Signal enhance feature improves signal quality for added distance transmissions

Technical Specifications

Warranty	2 Years
