

3.5in IDE to 1.8in ZIF LIF Internal Hard Drive Adapter Card

StarTech ID: ZIF2IDE35

This IDE to ZIF/LIF Hard Drive Adapter Card lets you convert a 1.8in Toshiba or Hitachi ZIF/LIF hard drive for connection to a 40 pin IDE port (typically used by 3.5in IDE hard drives).

Simply connect the 1.8in LIF/ZIF hard disk drive to the adapter, then mount the hard drive to the surface of the board. The board can then be mounted in a 3.5in drive bay, and connected to the computer power supply and 40 pin IDE port.

Applications and Solutions

- Ideal for convenient offloading from your notebook or consumer electronic device using 1.8" hard drive to mount in your desktop

Features

- 1.8" ZIF to 3.5" IDE adapter
- Mounts in a 3.5" drive bay
- Supports both Hitachi and Toshiba 1.8" ZIF or LIF hard drives with the supplied FFC cable

Technical Specifications

- Warranty: Lifetime warranty
- Product Height: 0.47 in [12 mm]
- Product Length: 3.46 in [88 mm]
- Carton Quantity: 100
- Shipping (Package) Weight: 0.22 lb [0.1 kg]
- Product Weight: 1.62 oz [46 g]
- Product Width: 4.02 in [102 mm]
- Connectors:
- General Specifications: Includes 3cm ZIF/LIF cable
- General Specifications: 1x 40 pin female ZIF Connector
- General Specifications: 1x 40 pin male IDE Connector
- General Specifications: 1x LP4 male Connector
- Operating Temperature: 0°C to 60°C
- Humidity: Max. 95 %, non condensing
