

Sit-Stand Desk Converter - With 35" Work Surface

Product ID: ARMSTSL

This sit-stand workstation transforms your current desk or tabletop into an ergonomic workspace, easily and cost-effectively. The height-adjustable standing desk converter sits on your desk to function just like a standing desk, providing a large work surface that holds two 24" monitors. Move it up or down with one smooth motion, to work in greater comfort and remain productive without disrupting your work while switching from a seated to standing position.

The sit-stand desk converter comes fully assembled, so you can be up and running quickly.

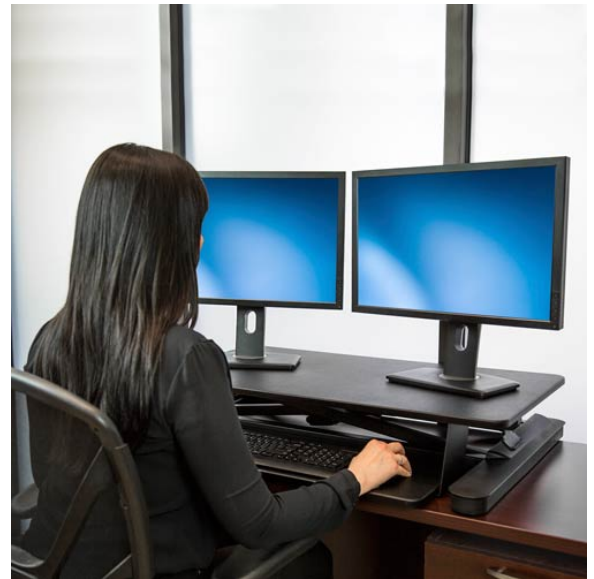

Adjust the height with one smooth motion

Moving between sitting and standing throughout your work day brings many health benefits, from increased circulation to reduced fatigue. The sit-stand workstation makes it easy to change your position throughout the day.

Change the height of your work surface, effortlessly, with a height adjustment range of 15.7" (399 mm). You simply squeeze the lever at the side, and then move the workstation up or down smoothly, using pneumatic technology. Its straight up-and-down movement saves space and provides a stable platform as it moves, with no fear of tipping.

Plus, there are no preset levels, so you can find the precise height you need to work most comfortably. It also offers a counterbalance feature, so you can adjust the tension according to the weight of your monitors, to raise or lower the work surface with ease.

Sized to fit your needs

The sit-stand workstation is conveniently sized for easy integration into your workspace. It's large enough (35.4" wide) to hold two 24" monitors, yet small enough to fit on most desks or other surfaces. Whether you work in an office setting, cubicle, or home office, the sit-stand workstation sits easily on your desk or work surface, and even works well for corner desks. It works well on a variety of surfaces that are 24" or deeper. The work surface supports a weight capacity of 28.1 lb. (12.7 kg).

The desktop workstation also features a large keyboard tray, with plenty of room for personal items like your phone.

Easy setup

The sit-stand desktop workstation comes fully assembled so you'll be up and running quickly. It also includes cable management to keep your cables organized and out of sight.

The ARMSTSL is backed by a StarTech.com 2-year warranty and free lifetime technical support.

Certifications, Reports and Compatibility

Applications

- Create a sit-stand workstation with versatile applications in office settings, cubicle environments, corporate business and institutions, or the home office
- Provides a cost-effective solution for enhancing ergonomics by utilizing existing desks and work surfaces
