Product ID: CDP2VGAUACP

This USB-C VGA multiport adapter combines the capability of two single-function adapters, a USB-C video adapter and USB-C to USB adapter, into a portable docking station for your laptop. ## Powers and Charges Your Laptop

With USB Power Delivery, you can power and charge your laptop by simply connecting the multiport adapter to your laptop's USB Type-C port, then connecting a USB Type-C power adapter.

## Universal Compatibility

The USB-C multiport adapter features a built-in USB-C cable and works with USB-C equipped MacBook, Chromebook™ and Windows laptops that support DisplayPort (DP) Alt Mode and USB Power Delivery.

## Rugged and Portable
