

3.5in Black Triple Fan Hard Drive Cooler for 5.25in Front Bay

Product ID: FANDRIVEBK

This triple fan hard drive cooler provides maximum airflow for hot-running hard drives, preventing overheating failures and extending the life of the drive.

The fan unit mounts in any free 5.25 inch drive bay, and the hard drive is mounted directly behind it using the supplied 3.5 inch to 5.25 inch adapter brackets; the fans draw fresh external air into the case through a removable, cleanable filter and blows the cooler air over the surface of the hard drive - a cost-effective solution that can help extend the life of hot running 7200 RPM, 10,000, or 15,000 RPM IDE and SCSI hard drives in servers or workstations.

Certifications, Reports and Compatibility

Applications

- Keep a 3.5in hard drive running cooler for increased reliability
- Keep a high performance hard drive running cooler
- Increase system airflow for better air circulation and cooling in hotter environments

Features

- Standard 5.25in front bay form factor
- Mounting bracket for almost any 3.5in hard drive
- Three 40mm ball bearing cooling fans
- Cleanable air filter

Hardware	Warranty	2 Years
	Drive Size	3.5in
	Fan Bearing Type	Ball Bearing
	Fans	3 - 40 mm
	Filter Type	Mesh
	Number of Drives	1
Performance	Air Flow Rate	4.17 CFM
	Fan RPM	5000 +/- 10%
	MTBF	45,000 Hours
	Noise Level	38 dBA
Connector(s)	Connector Type(s)	1 - LP4 (4 pin, Molex Large Drive Power) Male
Special Notes / Requirements	System and Cable Requirements	Available 5.25in front bay
Physical Characteristics	Color	Black
	Enclosure Type	Plastic
	Product Height	1.6 in [40 mm]
	Product Weight	8.8 oz [249 g]
	Product Width	5.9 in [150 mm]
Packaging Information	Shipping (Package) Weight	0.6 lb [0.3 kg]
What's in the Box	Included in Package	1 - 5.25in Bay with Fans 1 - 3.5in HDD Mounting Bracket 1 - Set of Mounting Screws
