

# USB 3.0 Capture Device for High-Performance VGA Video - 1080p 60fps - Aluminum

Product ID: USB32VGCAPRO

This VGA to USB video capture device records high-definition VGA video to your computer. With an aluminum enclosure, this device is built strong for fixed-location or on-the-go capture. It offers a separate 3.5 mm audio input for accompanying audio or voice-overs, and a VGA pass-through port for connecting a monitor to review the video as it's captured.

## Capture HD video at 1080p 60fps

Record 1080p video at 60fps (frames per second), to save your content so it can be shared, stored, or edited. Capture from security equipment, control rooms, medical, or other industrial VGA devices, directly to your computer.

## Easy video recording on Windows and Mac

The included software makes recording easy. Using a widely adopted codec, videos saved in StreamCatcher™ work with almost any video player and require no converting or editing.

## **Live stream on Windows**

On Windows, you can live broadcast your video over the internet, using Twitch™ or other third-party video streaming platforms, with the included software.

## **DirectShow compatibility on Windows**

With this capture device, you're not tied to the included software. You can record raw/lossless video using any third-party DirectShow™ compatible software, such as Open Broadcaster Software (OBS).

The USB32VGCAPRO is backed by a 2-year StarTech.com warranty and free lifetime technical support.

### Certifications, Reports and Compatibility

### Applications

- Record video for training and tutorial purposes from technologies that output VGA
- Capture raw, uncompressed video using your preferred DirectShow compatible software
- Great for recording the output from your PC, server, or POS station, when creating software training and tutorial videos
- Add your own independent audio source for voice-over commentary
- Convert analog video to digital, in professional video archiving applications

### Features

- Seamless picture quality with USB 3.0 bandwidth enabling you to capture 1080p video at 60 FPS
- Wide device playback support with universally encoded video files
- Raw/lossless video capture ensuring DirectShow™ compatibility on Windows devices
- Separate 3.5 mm audio input, for adding voice commentary or audio tracks
- Features a VGA pass-through port, for watching the video as it is captured

<b>Hardware</b>	Warranty	2 Years
	Audio	Yes
	AV Input	VGA
	AV Output	USB
	Chipset ID	Mstar - MST3363CNK-170
	Industry Standards	NTSC, PAL-M, PAL-60, PA Video Encoding: MPEG4/H.264 DirectShow Compatible
<b>Performance</b>	Audio Specifications	2-channel stereo audio
	Maximum Analog Resolutions	1920 x 1080 60 FPS
	MTBF	2,543,711 Hours
	Supported Resolutions	1920 x 1080, 1280 x 720, 1024 x 768, 800 x 600
	Wide Screen Supported	Yes
<b>Connector(s)</b>	Connector A	1 - VGA (15 pin, High Density D-Sub) Female Input 1 - 3.5 mm Mini-Jack (3 Position) Female Input
	Connector B	1 - USB Type-B (9 pin) USB 3.0 Female
<b>Software</b>	OS Compatibility	Windows® 7, 8, 8.1, 10 MacOS® 10.11 to 10.14
<b>Special Notes / Requirements</b>	<b>Note</b>	This video capture device requires a USB 3.0 port (or higher). The video capture device does not work with USB 2.0 ports (or lower).
<b>Power</b>	Power Source	USB-Powered
<b>Environmental</b>	Humidity	20% to 80% (non-condensing)
	Operating Temperature	0°C to 40°C (32°F to 104°F)
	Storage Temperature	-5°C to 40°C (23°F to 105°F)
<b>Physical Characteristics</b>	Product Height	0.9 in [24 mm]
	Product Length	3.6 in [92 mm]
	Product Weight	3.5 oz [100 g]
	Product Width	2.4 in [61 mm]
<b>Packaging Information</b>	Shipping (Package) Weight	0.9 lb [0.4 kg]
<b>What's in the Box</b>	Included in Package	1 - USB 3.0 capture device for VGA video

1 - 3.3 ft [1 m] USB 3.0 cable

1 - 3.3 ft [1 m] VGA cable

1 - quick start guide

1 - 6ft [2m] USB-C to USB-B Cable
